Bet on  
yourself

BattleBet - it's an App, a Game and something like a Gamble\*.

BattleBet turns the routine fitness program into a game and a gamble.

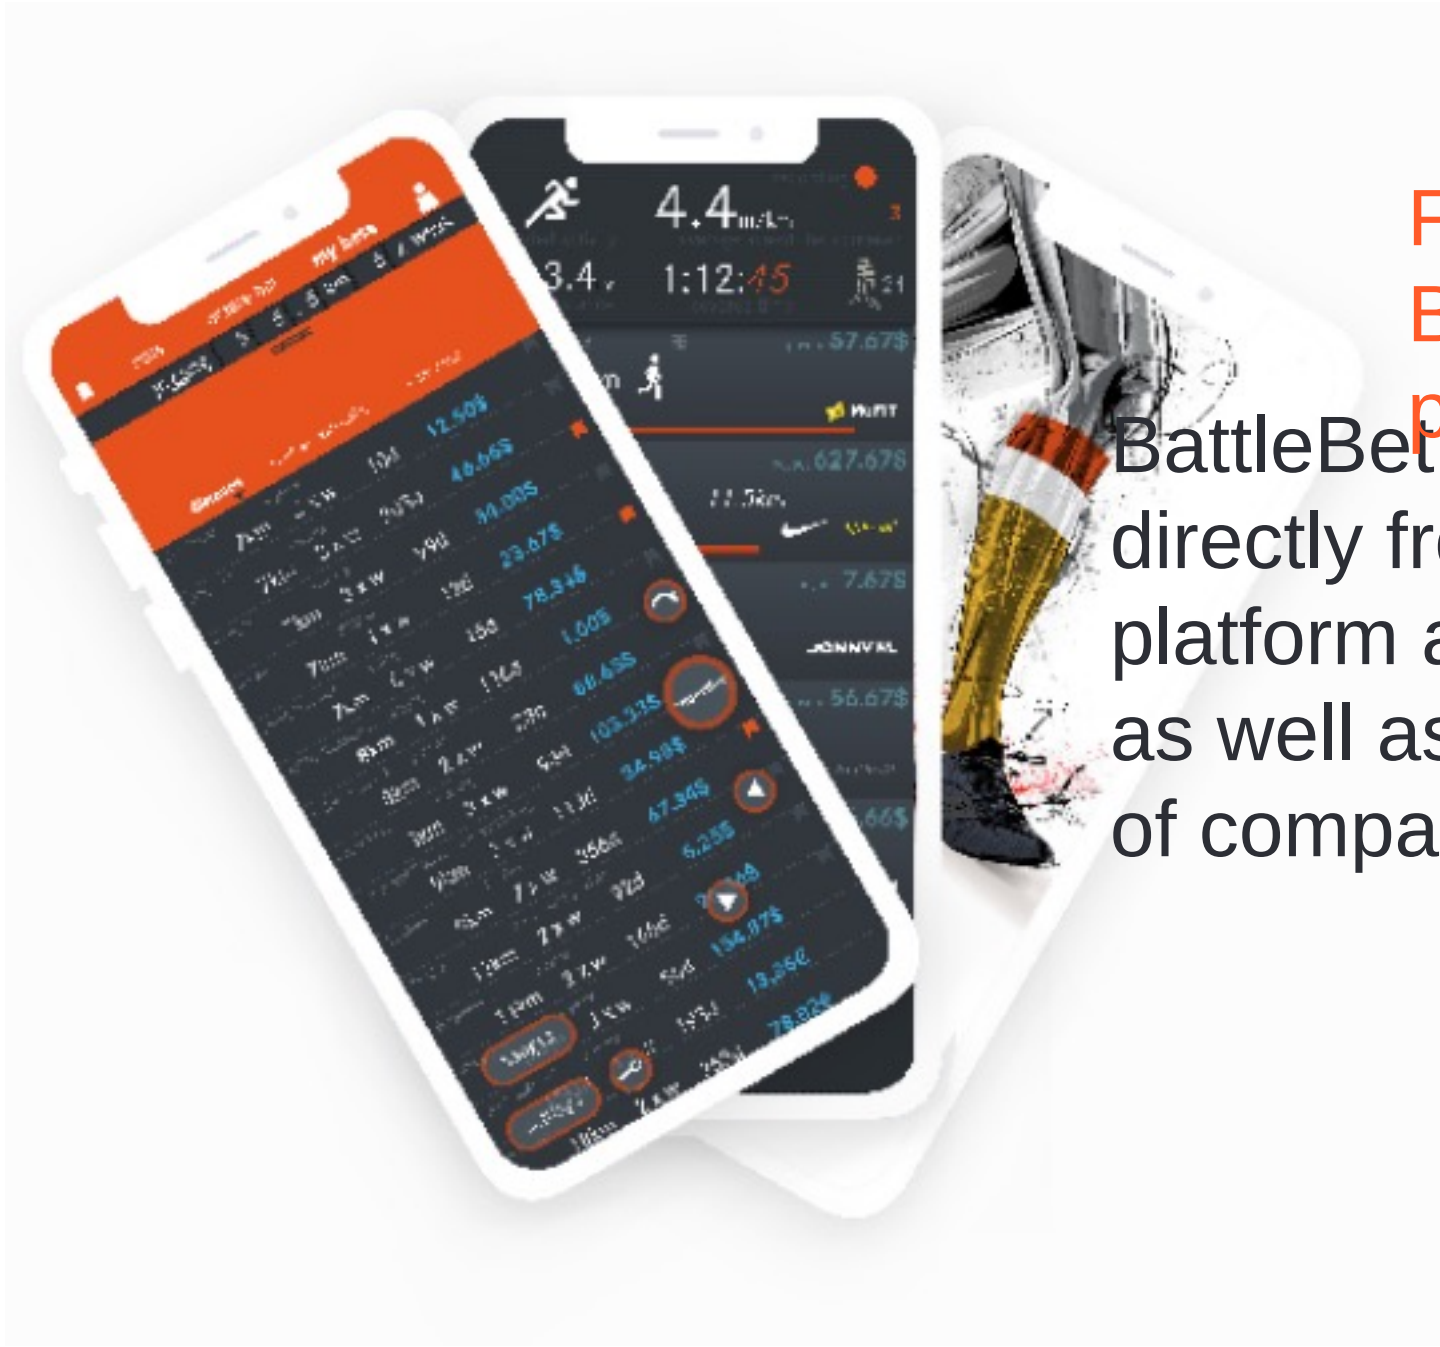

It's fun, let's run!

Briefing rrooaarr, 16. Jan. 2019

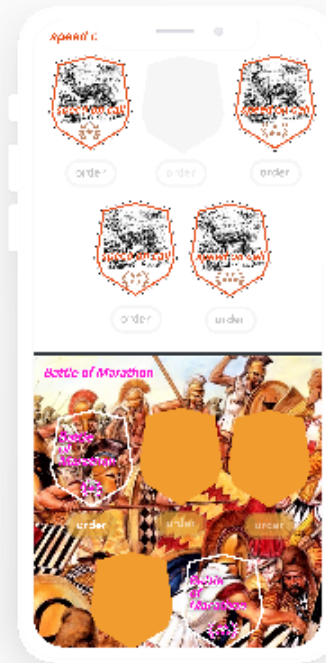

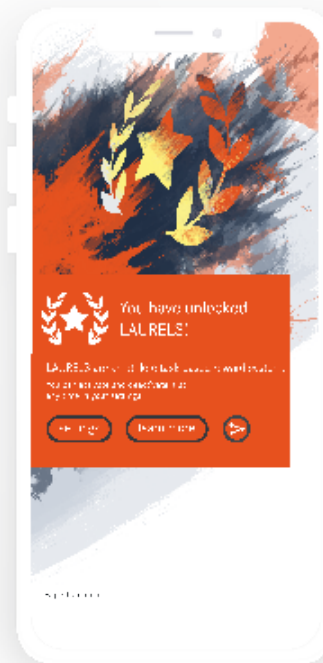

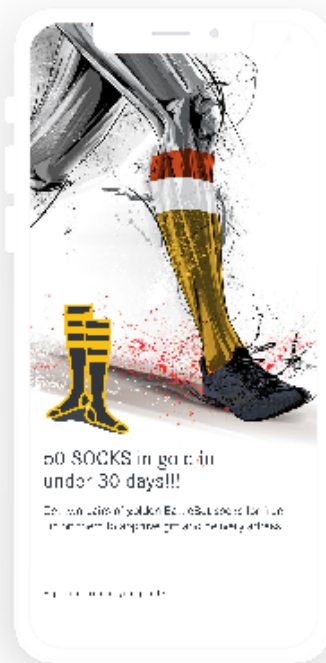

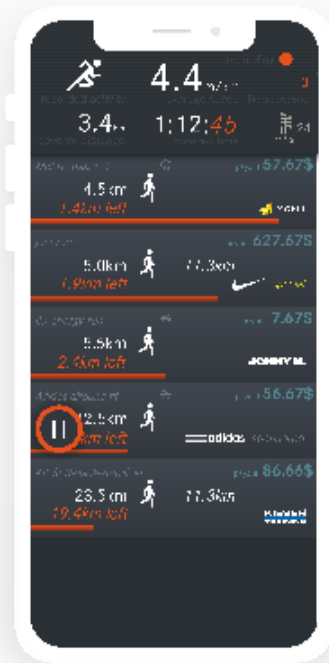

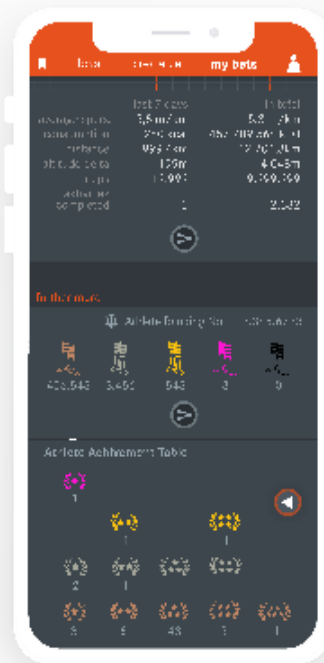

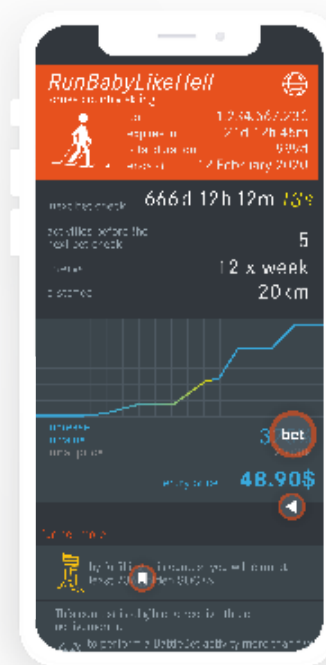

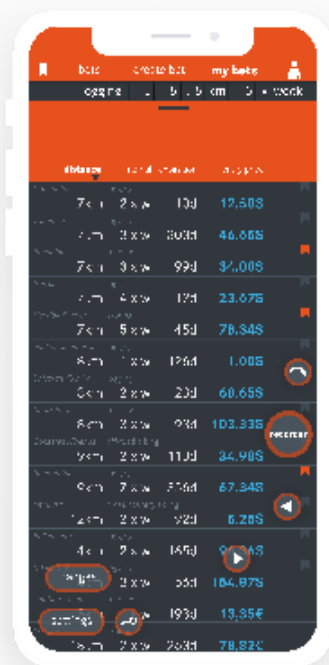

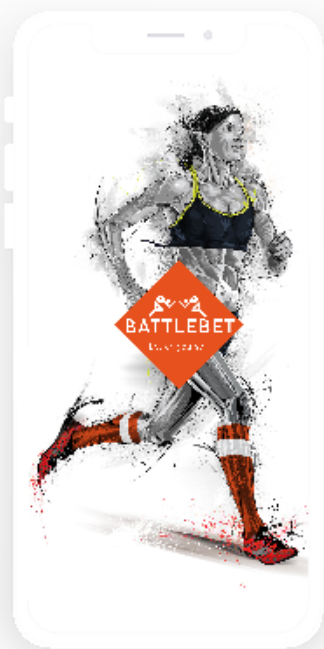

## The Working Principle of BattleBet: Put Money on your Stamina.

You want to jog 5 kilometers at least once a week. And that for six months. Bet a sum of money that you'll hold out. Start a group of players at BattleBet. The pot is divided at the end among all those who have held out.

Fee, Fun and Franchise:  
BattleBet is based on three  
pillars.

BattleBet generates revenue directly from the bets placed on the platform and through merchandising as well as through the involvement of companies on the platform.
